Dr. Sidney Drell
Stanford Linear Accelerator Center
Stanford University
Palo Alto, California

Dear Dr. Drell:

It is my personal desire to express the utmost appreciation for your participation as Technical Director of the Special Working Panel during the period 13 November 1963 to 6 February 1964.

Your diligence and dedication to this study are particularly noteworthy in view of the personal sacrifice and inconvenience, in the face of other duties, which were frequently involved.

As you realize, your efforts and those of the group under your direction have been in the highest National interest, and I believe the work should serve as a firm technical foundation for further progress in this extremely sophisticated and complicated area.

Sincerely,

John A. McCone
Director
